We have heaps of wedding planning advice, free download tools, and the best of Surrey vendors and services for you at www.weddingsinsurrey.co.uk. You are now ready to start planning, what will probably be the biggest even of your lives.

Every wedding is unique to the couple that is planning their wedding, but one thing in common with every wedding is the amount of planning that goes into making that perfect wedding day. No matter what the budget, whether it is a small simple wedding, or a huge lavish event in a stately home, the more planning that goes in beforehand, saves on the stress levels leading up to the big day.

This wedding planner is a twelve-month count down checklist that tells you what you need to do every step of the way. From the major decisions of setting your wedding date and choosing a venue, right down to the finer details, should you wish to include them in your plans too.

We've made it into a handy handbag size that can be folded and inserted into your diary organizer, ready to come to hand just when you need it.
